Chief of Naval Transport  
Chief of Air Staff  
CinC Land Army  
Controller Economic Warfare  
Controller Resistance & Propaganda  
Director of Intelligence  
First Secretary of the Treasury

Copy to : Cabinet members.

## URGENT WAR PLANS

It is with deep regret that I must inform you, the members of the Strategic Planning Committee, that the present Chair, Marshal Van Rental, has just been killed by enemy agents and his unique files of contingency plans destroyed. As a result of his well known passion for secrecy and security, you will know that Marshal Van Rental did not communicate his plans to another living soul. Freedonia therefore finds herself at war with Sylvania without a plan.

You are directed to meet forthwith and to do two things : Firstly make your recommendation as to which of you should be promoted to Chair and Chief of the Combined Staffs. The Cabinet reserves the right to accept or reject this nomination, but will take full cognizance of your views.

Secondly, you should discuss briefly, and in general terms, the type of strategy which should be pursued against Sylvania. In view of the critical situation, your strategic plan must be arrived at as quickly as possible. The Cabinet will require a presentation of your plan by 1600 hours today (in one hour from now).

*Firefly..*

(Signed)  
Rufus T Firefly  
**President of the Republic of Freedonia**
